## CUSTOM BUILT GENERATOR RIGS ONE OF OUR SPECIALTIES

We are well known for our extensive range of Heat Treating Equipment. But we also produce Mobile Heat Treating Rigs at our Hamilton, NJ location.

### RECENT BUILD

This Generator Rig was completely built at our Hamilton, NJ location. We incorporated a 225KVA Generator along with an 18 ft. Box.

The Truck arrives from the International plant in OHIO.

At our Bristol, PA location we lifted it off the other truck using one of our cranes. It was then driven back to our Hamilton location.
